MEMORANDUM FOR:

SUBJECT: Service Support of OPC Training Programs

25X1A9a

25X1A9a

1. It is suggested that the two of you immediately get together with [REDACTED] II/SA/TR to determine what action, if any, has been taken by Staff II/OPC in regards the memorandum you recently submitted. Following this, you should each see your respective liaison officer in OPC, [REDACTED], Air Force and [REDACTED] Navy, to ascertain what action has been taken on their end and further to secure approval for your liaison with your respective service. In any event, I feel it absolutely necessary that we do everything possible to initiate these programs and at an early date.

25X1A9a

2. If you find any hold-up whatsoever in this regard, please notify me so that I can call it to the attention of the appropriate authorities. I feel amost certain that in a short while we will be faced with a large training requirement in these particular fields and it is, therefore, vitally imperative that we at least establish a trained cadre to effect such instruction. By starting off small and expanding according to requirements, we should be prepared to meet almost any eventuality.
